
Class 12 Chemistry notes Chapter 1 Solid State

Class 12 Chemistry Notes

Class 12 Chemistry Notes Chapter 1 Solid State

Class 12 Chemistry notes Chapter 1 Solid State. Notes chapter 1 solid state contains all the topic as per the syllabus of NCERT. Each topic is explained in very easy language with coloured diagrams. Students can understand Typical topics easily step by step. **Class 12 chemistry notes** Chapter 1Solid state is prepared by our experts as per the latest syllabus and exam pattern Class 12 chemistry. Calculation of problems is given in very simple ways after consulting from various books and expert teachers. Also, you can download Class 12 Notes of other Subjects like Chemistry, Mathematics Formulas sheets, Biology. Along with Notes, we are also providing chapters wise notes of class 12 all other subjects. After reading the Class 12 chemistry Notes of Chapter 1solid state definitely you will get good marks in board exam Class 12 Chemistry Notes for Solid State. Each concept is explained in a detailed way class 12 chemistry notes chapter 1 solid state notes make according to the Class 12th NCERT Chemistry book. Students can download pdf file and do study offline so that preparation of exam will be done in better in the bottom section pdf button given so that you have to click on it and can download coloured notes of class 12 chemistry notes chapter 1 solid state. Notes made

according to NCERT Syllabus so that any student who studying in class 12 can read no matter which state you belong to even this notes can help to prepare for completive exam also.

Syllabus cover

Classification of solids based on different binding forces: molecular, ionic, covalent and metallic solids, amorphous and crystalline solids (elementary idea). Unit cell in two-dimensional and three-dimensional latitudes, calculating density of unit cell, packing in solids, efficiency, voids, number of atoms per unit cell in cubic unit cell, line defects,point defects, electrical and magnetic properties. Band theory of metals, conductors, semiconductors and insulators and N and P type semiconductors.
