CLOUD COMPUTING & DEVOPS

Complete Professional Handwritten Notes

*AWS, Azure, Docker Containerization, Kubernetes Orchestration &
Serverless Microservices*

✓ IaaS, PaaS & SaaS Architecture

✓ AWS EC2, S3, Lambda & IAM

✓ Docker Containers & Images

✓ Kubernetes Pods & Deployments

Designed for Cloud Certifications & DevOps Roles

CHAPTER 1: CLOUD ARCHITECTURE & SERVICES

IaaS vs PaaS vs SaaS

Cloud computing delivers computing services—including servers, storage, databases, networking, and software—over the Internet.

```
# Basic Dockerfile Example
FROM node:18-alpine
WORKDIR /app
COPY package*.json ./
RUN npm install
COPY . .
EXPOSE 3000
CMD ["npm", "start"]
```
