
CBSE Class 10 Geography MCQs Chapter – 2 Forest and Wildlife Resources

CBSE Class 10 Geography MCQs

Here we are providing **CBSE Class 10 Geography MCQs** Chapter – 2 Forest and Wildlife Resources , Chapter MCQs for board exam ,CBSE Class 10 Geography is very important for board exam preparation. This book explains all the concepts and topics in very simple language that the students can easily understand the complex subjects also. This CBSE Class 10 Geography MCQs Chapter – 2 Forest and Wildlife Resources, Chapter consist all important topic regarding chapter 2 CBSE Class 10 Geography MCQs Chapter – 2 Forest and Wildlife Resources , Chapter . This book basically covers all the major and minor elements that together form a CBSE Class 10 Geography MCQs Chapter – 2 Forest and Wildlife Resources . have been discussed in the NCERT Book for Class 10 Geography. The question papers in CBSE board exams are generally based on the latest NCERT books. Hence, students must follow the NCERT book to prepare effectively for their Class 10 Science exam. CBSE Class 10 Geography MCQs Chapter – 2 Forest and Wildlife Resources

1. Which animals in India are on the verge of extinction?

(A) Kangaroo

(B) cheetah, pink-headed duck

(C) Jaguar

(D) Mountain bear

Ans:-(B)

2. In which of the following tiger reserves have the local communities fought for conservation of the forests?

(A) Manas Tiger Reserve

(B) Periyar Tiger Reserve

(C) Simlipal Bio Reserve

(D) Sariska Tiger Reserve

Ans:-(D)

3. How much land is the forest and tree cover in the country estimated to be?

(A) 79.42 million hectares

(B) 80 million hectare

(C) 78.2 million hectares

(D) 8. 42 million hectares

Ans:-(A)

4. Forests and wastelands belonging to both private individuals and government are known as:

(A) Sacred groves

(B) Reserved forest

(C) Protected forests

(D) Unclassed forests

Ans:-(D)

5. Which one of these is a vulnerable species?

(A) Asiatic Buffalo

(B) Desert fox

(C) Gangetic dolphin

(D) Nicobar pigeon

Ans:-(C)

6. Species that are found in some particular areas, usually isolated by natural or geographical barriers, are known as:

(A) Vulnerable

(B) Endemic

(C) Extinct

(D) Endangered

Ans:-(B)

7. What are rare species?

(A) These are species whose population has declined to levels

(B) Species with small population

(C) species which are only found in some particular areas usually isolated by natural or geographical barriers.

(D) Species with small population

Ans:-(B)

8. Which of the following is an extinct species?

(A) Blue sheep

(B) Asiatic cheetah

(C) Black buck

(D) Asiatic elephant

Ans:-(B)

9. Which of the given below is a rare species?

(A) Blue sheep

(B) Andaman wild pig

(C) Asiatic buffalo

(D) pink head duck

Ans:-(C)

10. Which of the following is not one of the reasons for depletion of forests?

(A) Mining

(B) Multi-purpose river valley projects

(C) Grazing

(D) Creation of shelter belts

Ans:-(D)

11. Which of the given below are endemic species?

(A) Asiatic elephant, Gangetic dolphin

(B) Asiatic buffalo, desert fox

(C) Nicobar pigeon, Andaman wild pig,

(D) Asiatic cheetah, pink head duck.

Ans:-(C)

12. Which one of the following states has the largest area under permanent forests?

(A) Bihar

(B) Kerala

(C) Madhya Pradesh

(D) Uttar Pradesh

Ans:-(C)

13. What are Endemic species?

(A) Species with small population

(B) species which are only found in some particular areas usually isolated by natural or geographical barriers

(C) These are species whose population has declined to levels

(D) These are species which are not found after searches

Ans:-(B)

14. What was the aim of Chipko Movement?

(A) Human rights

(B) Political rights

(C) Agriculture expansion

(D) Forest conservation

Ans:-(D)

15. What type of species is the mithun in Arunachal Pradesh?

(A) Rare

(B) Endemic

(C) Vulnerable

(D) Extinct

Ans:-(B)

16. Which of the following types of species are known as the extinct species?

(A) Species whose population levels are normal

(B) Whose population has declined

(C) Species with small population

(D) Species which are not found

Ans:-(D)

17. What resources can be found from the forest and wildlife resources?

(A) wood, barks, leaves, rubber, medicines

(B) minerals

(C) Rocks and minerals

(D) Metals

Ans:-(A)

18. In which of the following states is Bandhavgarh National Park located?

(A) Gujarat

(B) Assam

(C) Madhya Pradesh

(D) Kerala

Ans:-(C)

19. The greatest damage inflicted on Indian forests was during the colonial period due to.....

(A) expansion of the railways, agriculture

(B) Trade

(C) Industry

(D) Taking complete control over the Indian forests

Ans:-(A)

20. Which one of the following belongs to vulnerable species?

(A) Black buck

(B) Crocodile

(C) Indian rhino

(D) Blue sheep

Ans:-(D)

21. What are the main reasons for depletion of forests?

(A) Large-scale development projects

(B) agriculture

(C) Trade

(D) Colonial rule

Ans:-(A)

22. Sariska wildlife sanctuary is located in which state?

(A) Rajasthan

(B) Uttar Pradesh

(C) Gujarat

(D) West Bengal

Ans:-(A)

23. A chemical compound called 'taxol' is extracted from .....which is the drug that is now the biggest selling anti-cancer drug.

(A) Bark of the Himalyan yew

(B) Trees of the Nilgiri hills

(C) Plants from the Brahmaputra area

(D) Leaves of the Himalayan Yew

Ans:-(A)

24. Which factors have led to the decline in India's biodiversity?

(A) Habitat destruction, hunting, poaching, over-exploitation, environmental pollution, poisoning and forest fires

(B) Mining

(C) Industry

(D) Large scale projects

Ans:-(A)

25. Sunderban National Park is located in which state?

(A) Assam

(B) West Bengal

(C) Tripura

(D) Gujarat

Ans:-(B)

26..... in third world countries is often cited as the cause of environmental degradation.

(A) Developmental projects

(B) Rural urban development

(C) Overpopulation

(D) Exploitation of resources

Ans:-(C)

27. The biological loss is strongly correlated with the loss of.....

(A) Agricultural production

(B) Industrial production

(C) Cultural diversity

(D) Loss of resources

Ans:-(C)

28. How many species of flora are found in India?

(A) 81000

(B) 47000

(C) 15000

(D) 41000

Ans:-(B)

29. How are women affected due to depletion of wildlife and forests?

(A) Due to exploitation of women

(B) Attacked by wild animals

(C) drudgery of women increases and sometimes they have to walk for more than 10 km to collect these resources

(D) They get looted on the way

Ans:-(C)

30. Which one of the following movements is not associated with the protection of trees?

(A) Chipko Movement

(B) Navdanya Andolan

(C) Project Tiger

(D) Beej Bachao Andolan

Ans:-(C)

31. What was the direct outcome of environmental destruction on the people?

(A) Lack of food

(B) Lack of fuel

(C) Unemployment

(D) Poverty

Ans:-(D)

32. Why do we need to conserve our forests and wildlife?

(A) to preserve the ecological diversity and our life support systems – water, air and soil.

(B) To maintain resources for industry

(C) To create employment

(D) To increase agricultural production

Ans:-(A)

33. The Buxa Tiger Reserve is situated in which of the following states?

(A) Madhaya Pradesh

(B) West Bengal

(C) Gujarat

(D) Orissa

Ans:-(B)

34. Fisheries are heavily dependent on the maintenance of .....

(A) Artificial ponds

(B) Mating and reproduction

(C) aquatic biodiversity.

(D) ecological diversity

Ans:-(C)

35. Which species of fauna are found in an area separated by natural or geographical barriers?

(A) Rare

(B) Extinct

(C) Vulnerable

(D) Endemic

Ans:-(D)

36. In which year was the Indian Wildlife (Protection) Act implemented?

(A) 1972

(B) 1975

(C) 1980

(D) 1965

Ans:-(A)

37. When was Asiatic Cheetah declared extinct in India?

(A) in 1958

(B) in 1989

(C) in 1922

(D) in 1952

Ans:-(D)

38. What was the plan of this act?

(A) protecting the remaining population of certain endangered species by banning hunting,

(B) To conserve forests

(C) To breed animals

(D) Employment for jungle habitants

Ans:-(A)

39. In which year, the Indian Wildlife (Protection) Act was implemented ?

(A) 1972

(B) 1971

(C) 1973

(D) 1974

Ans:-(A)

40. Which particular animal came under the threatened list?

(A) the tiger

(B) leopard

(C) Black buck

(D) Peacock

Ans:-(A)

41. Which one of the following was launched in 1973 ?

(A) Project Tiger

(B) Indian Wildlife Act

(C) Wildlife Act

(D) Wildlife Protection Act

Ans:-(A)

42. Which type of crocodiles came under the threatened list?

(A) freshwater crocodile

(B) Common crocodile

(C) Mushy water crocodile

(D) Damp Water crocodile

Ans:-(A)

43. Which one of the following is an example of endemic species? [CBSE 2011]

(A) Nicobar Pigeon

(B) Asiatic Buffalo

(C) Horn Bill

(D) Black buck

Ans:-(A)

44. Which animals have been given full or partial legal protection against hunting and trade throughout India?

(A) Peacock

(B) Partridge

(C) lion

(D) Asiatic lion

Ans:-(D)

45. Hubbardia Heptaneuron is a species of _____.

(A) Tree

(B) Plant

(C) Grass

(D) Flo

Ans: (C)

46. What was the reason for the extinction of Tigers?

(A) trade of tiger skins and the use of their bones in traditional medicines

(B) Hunting for fun

(C) Killing by the locals for protection from attacks

(D) Poisoning them

Ans:-(A)

47.Madhuca Insignis (a wild variety of Mahua) is a _____.

(A) Plant

(B) Tree

(C) Insect

(D) Birds

Ans:-(A)

48. Under which category of species does the Andaman wild pig come?

(A) Extinct

(B) Rare

(C) Vulnerable

(D) Endemic

Ans:-(D)

49. Which animal has been threatened to extinction because of poaching for trade, shrinking habitat, depletion of prey base species?

(A) Asiactic Lion

(B) Tiger

(C) Kashmir stag

(D) Gharial

Ans:-(B)

50. The forest and tree cover in India is estimated to be _____of its total geographical area.

(A) Around 30%

(B) Around 24%

(C) Around 35%

(D) Around 40%.

Ans:-(B)

51. When was “Project Tiger” launched?

(A) 1975

(B) 1972

(C) 1973

(D) 1977

Ans:-(C)

52. The open forests in India are _____ of its total geographical area.

(A) Around 9%

(B) Around 20%

(C) Around 15%

(D) Around 1%

Ans:-(A)

53. Which insects under notification of Wildlife Act of 1980 and 1986?

(A) grasshopper

(B) Butterflies

(C) Bees

(D) wasps

Ans:-(B)

54. Blue sheep, Asiatic elephant, Gangetic dolphin are examples of _____.

(A) Vulnerable species

(B) Rare species

(C) Endemic Species

(D) Extinct species

Ans:-(A)

55. What are reserved forests?

(A) most valuable as far as the conservation of forest and wildlife resources are concerned

(B) forest land are protected from any further depletion.

(C) forests and wastelands belonging to both government and private individuals and communities

(D) Forest land reserved for wood resources

Ans:-(A)

56. Asiatic cheetah and pink head duck are examples of _____,

(A) Endemic Species

(B) Extinct species

(C) Rare species

(D) Vulnerable species

Ans:-(B)

57. What type of forest lands are protected from any further depletion.

(A) Reserved forests

(B) Unclassed forests

(C) Protected forests

(D) National parks

Ans:-(C)

58. _____ is an example of Endemic Species.

(A) Pink head duck

(B) Asiatic cheetah

(C) Asiatic buffalo

(D) Nicobar pigeon

Ans:-(D)

59. What are unclassed forests?

(A) Forest land reserved for wood resources

(B) forest land are protected from any further depletion.

(C) most valuable as far as the conservation of forest and wildlife resources are concerned

(D) forests and wastelands belonging to both government and private individuals and communities

Ans:-(D)

60._____ are the species which are in danger of extinction.

(A) Endangered Species

(B) Rare Species

(C) Extinct Species

(D) Endemic Species

Ans:-(A)

61. Which forests are also referred to as permanent forest estates maintained for the purpose of producing timber and other forest produce, and for protective reasons?

(A) Reserved forests

(B) Unclassed forests

(C) Tropical forests

(D) National parks

Ans:-(C)

62. The Buxa Tiger Reserve in West Bengal is seriously threatened by the ongoing _____.

(A) Coal mining

(B) Iron ore mining

(C) Copper mining.

(D) Dolomite mining

Ans:-(D)

63. Which state in India has the largest area under permanent forests?

(A) Jammu & kashmir

(B) Madhya Pradesh

(C) Tamil Nadu

(D) West Bengal

Ans:-(B)

64. Teak monoculture has damaged the natural forest in _____.

(A) North India

(B) South India

(C) Central India

(D) Northeastern India

Ans:-(B)

65. How much is the total forest area of Madhya Pradesh under permanent forests?

(A) 65%

(B) 75%

(C) 70%

(D) 85%

Ans:-(B)

66. The Himalayan yew (Taxus wallichiana) is a medicinal plant found in various parts of _____ and _____.

(A) Himachal Pradesh and Arunachal Pradesh

(B) Uttarakhand and Assam

(C) Uttarakhand and Ladakh

(D) Jammu & Kashmir and Sikkim

Ans:-(A)

67. Name two states that have a bulk of it under protected forests?

(A) Madhya Pradesh

(B) Himachal pradesh

(C) Maharashtra

(D) Tamil Nadu

Ans:-(B)

68. The forest cover in our country has recently increased due to:

(A) Increase in natural forest growth

(B) Increase in net sown area

(C) Plantation by different agencies

(D) None of the above

Ans:-(c)

69. Which state has large areas under unclassed forests?

(A) Gujarat

(B) Andhra Pradesh

(C) Odisha

(D) Haryana

Ans:-(A)

70. The species whose population has declined to a level from where it is likely to move into the endangered category in the near future if the negative factors continue to operate are called:

(A) Endemic species

(B) Extinct species

(C) Vulnerable species

(D) Normal species

Ans:-(c)

71. Beliefs such as nature worship by the tribals have preserved several virgin forests in pristine form called .....Sacred Groves

(A) Sacred Groves

(B) Home Groves

(C) Holy Forests

(D) Heaven in Forest

Ans:-(A)

72. The Himalayan brown bear is an example of:

(A) Vulnerable species

(B) Rare species

(C) Endemic species

(D) Extinct species

Ans:-(B)

73. How are the sacred groves treated?

(A) Only the villagers can use them

(B) patches of forest or parts of large forests have been left untouched by the local people and any

(C) interference with them is banned

(D) They are under government control

Ans:-(B)

75. Substantial parts of the tribal belts in north¬eastern India, have been deforested by:

(A) Shifting cultivation

(B) Mining

(C) Infrastructure development

(D) None of the above

Ans:-(A)

76. Tribals of Odisha and Bihar worship the .....trees during weddings.

(A) Tamarind

(B) Eucalyptus

(C) Banyan

(D) Peepal

Ans:-(A)

77. Species which are only found in some particular areas isolated by geographical barriers are called:

(A) Extinct species

(B) Endemic species

(C) Rare species

(D) Critical species

Ans:-(B)

78..... are often ascribed to springs, mountain peaks, plants and animals which are closely protected.

(A) Pure qualities

(B) Medicinal qualities

(C) Impure qualities

(D) Sacred qualities

Ans:-(D)

79.Which movement in the Himalayas has successfully resisted deforestation?

(A) The Himalyan movement

(B) Chipko movement

(C) Save Forests movement

(D) Save trees Movement

Ans:-(B)

80. Which Farmers and citizen's groups have worked towards diversified crop production without the use of synthetic chemicals?

(A) Chipko

(B) Beej Bachao Andolan

(C) Kissan andolan

(D) Kissan seva

Ans:-(B)

81. What does joint forest management (JFM) furnish?

(A) diversified crop production

(B) No use of pesticides

(C) involving local communities in the management and restoration of degraded forests.

(D) Large scale production

Ans:-(C)

82. When did JFM come into existence?

(A) 1987

(B) 1988

(C) 1976

(D) 177

Ans:-(B)

83.Which state passed the first resolution for joint forest management?

(A) Madhya Pradesh

(B) Karnataka

(C) Himachal Pradesh

(D) Odisha

Ans:-(D)

84. JFM depends on the formation of..... that undertake protection activities mostly on degraded forest land managed by the forest department

(A) State managed institutions

(B) District level institutions

(C) local (village) institutions

(D) National bodies

Ans:-(C)

85. What benefits are the members of these communities entitled to by the JFM?

(A) benefits like in all forest products

(B) share in the timber harvested by 'successful protection'.

(C) Share in the financial output

(D) Share in the different plants and crops

Ans:-(B)

86. Which of these statements is not a valid reason for the depletion of flora and fauna?

(A) Agricultural expansion.

(B) Large scale developmental projects.
(C) Grazing and fuel wood collection.
(D) Rapid industrialisation and urbanisation.

Ans:-(A)

87. Which of the following conservation strategies do not directly involve community participation?

(A) Joint forest management
(B) Chipko Movement
(C) Beej Bachao Andolan
(D) Demarcation of Wildlife sanctuaries

Ans:-(D)
