
CBSE Class 10 Geography MCQs Chapter - 4 Agriculture

CBSE Class 10 Geography MCQs

CBSE Class 10 Geography MCQs Chapter – 4 Agriculture

1. Which of the following describes a system of agriculture, where a single crop is grown on large area?
(a) Shifting agriculture
(b) Plantation agriculture
(c) Horticulture
(d) Intensive agriculture
Ans.(b)

2. Tick the characteristics of Commercial farming
(a) Plots of land are fragmented.

(b) Transport and communication plays an important role.
(c) The yield is usually low.
(d) The pressure of population is high on land.
Ans.(b)

3. Choose the correctly matched pair about the agriculture in India from the following options:
(a) Rabi crops are sown – October to December
(b) Gram – paddy crops
(c) Aus, Aman and Boro – Government schemes
(d) Kissan Credit Card – Increased the production
Ans.(a)

4. Which of the following pulses does not help in restoring soil fertility.
(a) Moong
(b) Gram
(c) Peas
(d) Arhar
Ans.(d)

5. The crop that is used both, as food and fodder
(a) ragi
(b) jowar
(C) maize
(d) none of these
Ans.(c)

6.Choose the correctly matched pair about the non-food crops in India from the following options:
(a) Cotton – Karnataka
(b) Rubber – Assam
(c) Jute – UP
(d) Fibre Crops – Nicobar Islands
Ans.(a)

7. Which out of the following is a Zaid crop?
(a) Moong
(b) Mustard
(c) Urad

(d) Watermelon

Ans.(d)

8. What is ‘Boro’?

(a) Kharif crop

(b) Zaid crop

(c) Rabi crop

(d) None of these

Ans.(c)

9. Jhumming in Brazil is called

(a) Ladang

(b) Masole

(c) Roca

(d) None of these

Ans.(b)

10. Fill in the blank:

Kharif:_____ Rabi : barley, Zaid: watermelon

(a) gram

(b) wheat

(c) oilseeds

(d) moong

Ans.(a)

11. Which one of the following is a Rabi crop?

(a) Rice

(b) Gram

(c) Millets

(d) Cotton

Ans.(b)

12. Which one of the following is a leguminous crop?

(a) Pulses

(b) Jawar

(c) Millets

(d) Sesamum

Ans.(a)

13. Which one of the following is announced by the government in support of a crop?

(a) Maximum support price

(b) Minimum support price

(c) Moderate support price

(d) Influential support price

Ans.(b)

14. Which of the following is not correct about plantation crop?

(a) In this type of farming, a single crop is grown on a large area.

(b) The plantation has an interface of agriculture and industry.

(c) Plantation cover large tracts of land called estates.

(d) Farmers clear a patch of land by felling the trees and burning them, to produce cereals and

other food crops.

Ans.(d)

15. Which of the following are plantation crops?

(a) Rice and maize

(b) Wheat and pulses

(c) Tea, coffee, banana and sugarcane

(d) None of the above

Ans.(c)

16. The three crop seasons of India are-

(a) Aus, Aman and Boro

(b) Rabi, Kharif and Zaid

(c) Baisakh, Paus and Chait

(d) None of the above

Ans.(b)

17. Rabi crops are-

(a) sown in winter and harvested in summers.

(b) sown during rainy season and harvested in winter.

(c) sown in summer and harvested in winter.

(d) none of the above

Ans.(a)

18. Kharif crops are grown-

(a) with the onset of monsoon and harvested in September October.

(d) with the onset of winter and harvested in summer.

(c) with the onset of Autumn and harvested in summer.

(d) none of the above

Ans.(a)

19. The main food crop of Kharif season is-

(a) Mustard

(b) Pulses

(c) Rice

(d) Wheat

Ans.(c)

20. The main food crop of Rabi season is-

(a) Wheat

(b) Rice

(c) Maize

(d) Jowar

Ans.(c)

21. A short season in between Rabi and Kharif season is known as-

(a) Aus

(b) Boro

(c) Zaid

(d) None of the above

Ans.(c)

22. Important non-food crops of our country are- .

(a) Tea and coffee

(b) Millets and pulses

(c) Cotton and jute

(d) None of the above

Ans.(c)

23. Which is the main food crop of the eastern and southern parts of our country?

(a) Rice

(b) Wheat

(c) Maize

(d) Sugarcane
Ans.(a)

24. The two main wheat growing regions are-
(a) The Ganga-Satluj plains and the Deccan trap
(b) North-Eastern part and Eastern-Coastal plains
(c) Deccan Plateau and Konkan Coast
(d) None of the above
Ans.(a)

25. Wheat requires annual rainfall between-
(a) 50 and 75 cm
(b) About 200 cm
(c) 200 and 300 cm
(d) Less than 20 cm
Ans.(a)

26.The third most important crop of our country is.
(a) Rice
(b) Wheat
(c) Jowar
(d) Ragi
Ans.(c)

27. Which state is the largest producer of bajra?
(a) Rajasthan
(b) Maharashtra
(c) Gujarat
(d) Haryana
Ans.(a)

28. Which is the right condition for the growth of maize?
(a) Temperature between 21 to 27 degrees Celsius and old alluvial soil
(b) Temperature below 17 degree Celsius and shallow black soil
(c) Temperature of 25 degrees Celsius and 200 cm of rainfall
(d) None of the above
Ans.(a)

29. Which of the following crops is a major source of protein in a vegetarian diet?

(a) Wheat
(b) Rice
(c) Pulses
(d) Oilseeds
Ans.(c)

30. Which one of the following is not true for pulses?
(a) Pulses are grown in both rabi and kharif seasons.
(b) Pulses are leguminous crops.
(c) They are grown in rotation with other crops.
(d) Pulses require intensive irrigation facilities.
Ans.(d)

31. Which is the ideal condition for the growth of sugarcane?
(a) Temperature of 21 to 27 degrees Celsius and an annual rainfall between 75 cm and 100 cm
(b) Temperature below 17 degrees Celsius and 50 to 75 cm of rainfall
(C) Temperature of 25 degrees Celsius and 200 cm of rainfall
(d) None of the above
Ans.(a)

32. What percentage of our cropped area is covered by oilseeds?
(a) 21%
(b) 12 %
(c) 2 %
(d) 4 %
Ans.(b)

33.Which of the following conditions spoil tea crop?
(a) Frequent showers evenly distributed over the year
(b) Frost free climate
(c) Deep fertile well drained soil
(d) Clavey soil which has high water holding capacity
Ans.(d)

34. Coffee cultivation was first introduced in_____.
(a) Himalayas
(b) Aravallis
(c) Garo Hills

(d) Baba Buden Hills

Ans.(d)

35. Which of the following crops is an important raw material for automobile industry?

(a) Pulses

(6) Ragi

(c) Rubber

(d) None of the above

Ans.(c)

36. Rearing of silk worms for the production of silk fibre is known as-

(a) Sericulture

(b) Aquaculture

(c) Horticulture

(d) Pisciculture

Ans.(a)

37. Which one of the following is known as golden fibre!

(a) Cotton

(b) Jute

(c) Hemp

(d) Silk

Ans.(b)

38. Primitive subsistence farming is also known as-

(a) Mixed farming

(b) Cooperative farming

(c) Slash and burn agriculture

(d) Commercial farming

Ans.(c)

39. Plantation agriculture is a type of

(a) Subsistence farming

(b) Commercial farming

(c) Mixed farming

(d) None of the above

Ans.(b)

40.How much India's population is engaged in agriculture?

(a) Two – thirds

(b) Half

(c) One- thirds

(d) Almost fifty percent

Ans.(a)

41. Over these years, cultivation methods have changed significantly depending upon the characteristics of-

(a) Type of crop

(b) Technological know-how

(c) Type of season

(d) Government intervention

Ans.(b)

42. Farming has varied from subsistence to _____ type.

(a) intensive

(b) extensive

(c) commercial

(d) plantation

Ans.(c)

43. Agriculture is practiced on small patches of land with the help of primitive tools like hoe and digging sticks, and family/community labour. What type of agriculture is this?

(a) Intensive

(b) Primitive

(C) Extensive

(d) Plantation

Ans.(b)

44.What has been the main dependency of primitive farming?

(a) Monsoon

(b) Labour

(c) Suitability of environment

(d) Technical

Ans.(a)

45. Which type of agriculture is called 'slash and burn' agriculture?

(a) Plantation
(b) Intensive
(c) Primitive subsistence
(d) Extensive
Ans.(c)

46.What among the following is the primitive subsistence farming?
(a) Large amount of labour
(b) When the soil fertility decreases, the farmers shift and clear a fresh patch of land
(c) Canals are used
(d) Use of fertilizers
Ans.(b)

47. What is slash and burn agriculture called in North Eastern states?
(a) Jhumming
(b) Milpa
(C) Masole
(d) Ray
Ans.(a)

48. Intensive subsistence farming is farming
(a) machine based
(b) crop rotation
(c) labour intensive
(d) soil consistent
Ans.(c)

49. Why is there an enormous pressure on agricultural land?
(a) Due to the law of inheritance and division of land
(b) Overpopulation
(c) Small scale farmers are not able to earn livelihood
(d) Farmers of less land holdings are not able to afford the right technique
Ans.(a)

50. If rice is commercial crop in Haryana and Punjab, in which state is it a subsistence crop?
(a) Madhya Pradesh
(b) Maharashtra
(c) Odisha

(d) Rajasthan

Ans.(c)

51. What are the characteristics of plantation farming?

(a) Multiple crops

(b) Using capital intensive inputs, with the help of migrant laborer

(c) The produce is used for various reasons

(d) Crop rotation on the same piece of land

Ans.(b)

52. Name important plantation crop?

(a) Tea, coffee, rubber, sugarcane and banana

(b) Cotton

(c) Wheat and rice

(d) Nuts

Ans.(a)

53 Which state is known for growing tea?

(a) Assam

(b) Shillong

(c) Meghalaya

(d) Sikkim

Ans.(a)

54.How many cropping seasons does India have?

(a) 4

(6) 2

(C) 5

(d) 3

Ans.(d)

55.When are Rabi crops harvested?

(a) October

(b) April

(c) December

(d) July

Ans.(b)

56. Identify the Rabi crop.

(a) Jowar
(b) Rice
(c) Soyabean
(d) Peas
Ans.(d)

57.Which state is known for growing rabi crops?
(a) Madhya Pradesh
(b) Rajasthan
(c) Odisha
(d) Punjab
Ans.(d)

58. Availability of_____ during winter months due to western temperate cyclones helps in the success of Rabi crops.
(a) monsoons
(b) precipitation
(c) frost
(d) winds
Ans.(b)

59.Which among the following states is known for their success in the Green Revolution?
(a) Punjab
(b) Uttar Pradesh
(c) Uttarakhand
(d) Gujarat
Ans.(a)

60. When are kharif crops harvested?
(a) September October
(b) December-January
(c) June-July
(d) April-May
Ans.(a)

61. Name a crop grown during the Kharif season.
(a) Barley
(b) Gram

(c) Rice
(d) Jowar
Ans.(c)

62. Which of the following crop is grown in Zaid season?
(a) Peas
(b) Urad
(c) Cucumber
(d) Maize
Ans.(c)

63. Name an important rice growing regions from the following:
(a) Assam
(b) Kerala
(C) West Bengal
(d) Maharashtra
Ans.(a)

64. In Assam, West Bengal and Odisha, how many crops of paddy are grown in a year?
(a) 2
(b) 3
(c) 1
(d) 4
Ans.(b)

65. Name a crop grown in Zaid period.
(a) Groundnut
(b) Jute
(c) Mustard
(d) Watermelon
Ans.(d)

66.How long does sugarcane take to grow?
(a) Almost 4 months
(b) Almost 6 months
(c) Almost a year
(d) Almost 3 months
Ans.(c)

67. India is the_____ largest producer of rice in the world.
(a) first
(b) second
(c) third
(d) fourth
Ans.(b)

68. Rice requires high humidity with_____ cm of rainfall.
(a) above 100 cm
(b) below 100 cm
(c) above 75 cm
(d) above 60 cm
Ans.(a)

69.How has it been possible to grow rice in areas of less rainfall such as Punjab, Haryana and Western Uttar Pradesh and parts of Rajasthan?
(a) With rooftop water reserves
(b) Canals
(c) Lakes
(d) Rivers
Ans.(b)

70.What kind of weather conditions are favorable for the growth of wheat?
(a) Hot-wet weather
(b) Monsoon
(c) Dry hot weather
(d) Cool growing season and a bright sunshine
Ans.(d)

71. Which crops come under the classification of millets?
(a) Peas and maize
(b) Mustard and soyabean
(c) Urad and moong
(d) Jowar and Bajra
Ans.(d)

72. Millets have high nutritional value and are rich in-
(a) Iron and calcium

(b) Minerals
(c) Phosphate
(d) Proteins
Ans.(a)

73. Jowar is the _____ most important food crop with respect to area and production.
(a) first
(b) second
(c) third
(d) fourth
Ans.(c)

74. Jowar is rain-fed crop mostly grown in the moist areas which needs irrigation
(a) high
(b) medium
(c) less
(d) no
Ans.(c)

75. Name a major Jowar producing state.
(a) Haryana
(b) Punjab
(c) Uttar Pradesh
(d) Maharashtra
Ans.(d)

76. Bajra grows well on_____ soil.
(a) alluvial soil
(b) red soil
(c) arid soil
(d) black soil
Ans.(a)

77. Which of the following crops is used both for food and fodder?
(a) Jowar
(b) Maize
(C) Bajra
(d) Wheat

Ans.(b)

78. India is the_____ largest producer as well as consumer of pulses in the world.

(a) first

(b) second

(c) third

(d) fourth

Ans.(a)

79. Which crop needs manual labour from sowing to harvesting?

(a) Water melon

(b) Sugarcane

(c) Maize

(d) Bajra

Ans.(b)

80. Name a major banana producing state of India.

(a) Andhra Pradesh

(b) Telangana

(c) Meghalaya

(d) Kerala

Ans.(d)

81. Where is rubber mainly grown?

(a) Andhra Pradesh

(b) Karnataka

(c) Andaman and Nicobar

(d) Madhya Pradesh

Ans.(c)

82. Which fibre crop is obtained from cocoons of the silkworms fed on green leaves?

(a) Jute

(b) Silk

(c) Cotton

(d) Hemp

Ans.(b)

83. Name a state which is major producer of jute?

(a) Andhra Pradesh

(6) Maharashtra

(C) Madhya Pradesh

(d) West Bengal

Ans.(d)

84. In 2016, India was the _____largest producer of fruits and vegetables in the world.

(a) first

(b) second

(C) third

(d) fourth

Ans.(b)

85. Which one of the following is not a food crop?

(a) Rice

(b) Wheat

(c) Cotton

(d) Maize

Ans.(c)

86. Muskmelon grows in-

(a) Rabi season

(b) Kharif season

(c) Zaid season

(d) All the above

Ans.(c)

87. It takes almost a year to grow-

(a) Rice

(b) Sugarcane

(c) Maize

(d) Bajra

Ans.(b)

88.The second largest producer of groundnut is_____.

(a) Gujarat

(b) Andhra Pradesh

(c) Tamil Nadu
(d) Kerala
Ans.(b)

89.Which country is the largest producer of fruits and vegetables in the world?
(a) China
(b) USA
(c) Pakistan
(d) India
Ans.(a)

90.Arabic variety of coffee was initially brought to India from which of the following countries
(a) Yemen
(b) Vietnam
(C) Japan
(d) Korea
Ans.(a)

91.Which country is the largest producer of oilseeds in the world?
(a) China
(b) India
(c) USA
(d) Pakistan
Ans.(b)

92.of which one of the following beverage crops, India is the leading producer as well as exporter in the world?
(a) Coffee
(6) Pulses
(c) Tea
(d) Curd
Ans.(c)

93. Which of the following types of farming is practiced in areas with high population pressure on land?
(a) Primitive subsistence farming
(b) Intensive subsistence farming
(c) Commercial farming

(d) Plantations

Ans.(b)

94. Which of the following is the principal crop grown in areas of intensive subsistence farming?

(a) Yams and sweet potato

(b) Wheat

(c) Rice

(d) Cotton

Ans.(c)

95. India is the largest producer as well as the consumer of which of the following crops?

(a) Rice

(b) Millet

(c) Pulses

(d) Oilseeds

Ans.(c)

96. Which of the following types of economic activity is agriculture?

(a) Primary activity

(b) Secondary activity

(c) Tertiary activity

(d) All the above

Ans.(a)

97. Which of the following are known as coarse grains?

(a) Wheat and rice

(b) Millets- Jowar, bajra and ragi

(c) Pulses- urad, arhar, gram

(d) Oilseeds

Ans.(b)

98. Which of the following crops is the main source of jaggery, khandsari and molasses?

(a) Arhar

(b) Coconut

(c) Linseed

(d) Sugarcane

Ans.(d)

99. Which of the following is the primary objective of India's food security policy?
(a) To ensure availability of food grains to the common people at an affordable price
(b) To diversify crop production to increase income of farmers
(c) To provide insurance against crop failure
(d) To shift from food grain production to commercial crops
Ans.(a)

100. India is believed to be the original home of which of the following fiber crops?
(a) Cotton
(b) Jute
(c) Hemp
(d) Silk
Ans.(a)

101. In which of the following states of India rice is considered a commercial crop?
(a) West Bengal
(b) Odisha
(c) Bihar
(d) Punjab
Ans.(a)

102. In which type of soil does maize grow well?
(a) Black
(b) Light domat
(c) Old alluvial
(d) None of the above
Ans.(c)

103. Grapes are mainly produced in the state of_____.
(a) Meghalaya
(b) Himachal Pradesh
(C) Mizoram
(d) Andhra Pradesh
Ans.(d)

104. Bhoodan-Gramdan movement was initiated by-
(a) Mahatma Gandhi

(b) Jawaharlal Nehru
(c) Vinoba Bhave
(d) Bal Gangadhar Tilak
Ans.(c)

105. Grouping of small land holdings into a bigger one is called-
(a) Ceiling on land holdings
(b) Collectivization
(c) Cooperative farming
(d) Consolidation of land holdings
Ans.(d)

106. Oranges are mainly produced in the state of-
(a) Madhya Pradesh
(b) Maharashtra
(c) Kerala
(d) Tamil Nadu
Ans.(b)

107. Intensive subsistence farming is practiced in the area of-
(a) high population
(b) low population
(c) deserts
(d) thick forests
Ans.(a)

108. Which one of the following statements is incorrect as regards to commercial farming?
(a) Use of heavy doses of modern inputs
(b) Crops are grown for sale
(c) Family members are involved in growing crops
(d) Practiced on large land holdings
Ans.(c)

109. The largest tea producing state of India is-
(a) Karnataka
(b) Assam
(c) Andhra Pradesh
(d) Arunachal Pradesh

Ans.(b)

110. A type of millet rich in iron, calcium, other micronutrient and roughage is-
(a) Bajra
(b) Rajma
(c) Jowar
(d) Ragi
Ans.(d)

111. White revolution involves improvement in the production of which of the following products?
(a) Cotton
(b) Wheat
(c) Maize or corn
(d) Milk
Ans.(d)

112. Which type of farming has the use of higher doses of modern inputs like HYV seeds, chemical fertilizers, insecticides and pesticides?
(a) Primitive subsistence
(b) Plantation
(c) Extensive
(d) Commercial
Ans.(d)

113. India is the second largest producer of sugarcane only after-
(a) China
(6) USA
(c) Brazil
(d) Mexico
Ans.(c)

114. The oil seed in India grown in both Rabi and Kharif season is-
(a) Ground nut
(b) Coconut
(c) Castor seeds
(d) Mustard
Ans.(c)

115. Ragi is very rich in:

(a) Zinc

(b) Iodine

(c) Iron

(d) Phosphorous

Ans.(c)

116. Choose the correctly matched pair about the major crops of India from the following options:

(a) Millets – North eastern part of the country

(b) Wheat – North western part of the country

(C) Pulses – South western part of the country

(d) Rice – South eastern part of the country

Ans.(b)

117. Fill in the blank:

Agriculture contributes_____ to the national income of India.

(a) 33%

(b) 22%

(c) 40%

(d) none of these

Ans.(d)

118. Choose the correctly matched pair about the main crop growing states of India from the following options:

(a) Cotton – Meghalaya

(b) Rubber – Garo hills of Meghalaya

(c) Fibre Crops – UP

(d) Jute – Nicobar islands

Ans.(c)

119. Fill in the blank:

Moong : Kharif : _____ Rabi , watermelons : Zaid

(a) Jute

(b) Jowar

(c) Wheat

(d) Soyabean

Ans.(c)

120. Fill in the blank:
Jute : Odisha, Cotton: _____, Rubber : Garo hills of Meghalaya
(a) Tamil Nadu
(b) West Bengal
(c) Meghalaya
(d) all the above
Ans.(a)

121. Choose the correctly matched pair about the agriculture pattern of India from the following options:
(a) Primitive subsistence agriculture – Dao and digging sticks
(b) Slash and burn agriculture – cotton and tobacco
(c) Intensive Subsistence agriculture – felled and burned vegetation
(d) Commercial farming – hoe
Ans.(a)

122.Fill in the blank:_____ farming is practised on small patches of land with the help of primitive tools like hoe, dao and digging sticks and family/community.
(a) Commercial
(b) Intensive Subsistence
(c) both (a) and (b)
(d) Primitive Subsistence
Ans.(d)

123. Fill in the blank: Jowar – Karnataka, bajra – Uttar Pradesh, maize._____.
(a) Bihar
(b) Madhya Pradesh
(c) Haryana
(d) Odish
Ans.(b)

124. The commercial crop of Punjab and Haryana is
(a) rice
(b) sugarcane
(c) cotton
(d) wheat
Ans.(a)

125. By what name is Jhumming known as in the Himalayan belt?

(a) Milpa
(b) khil
(c) Kuruwa
(d) Penda
Ans.(c)

126. Which out of the following is a plantation crop?
(a) Jute
(b) Sugarcane
(c) Cotton
(d) Muskmelon
Ans.(b)

127. Which of the following is not used in ‘subsistence farming”?
(a) Hoe
(b) Digging sticks
(c) Thresher
Ans.(c)

128. What is ‘Milpa”
(a) A type of agriculture
(b) type of animal
(c) A type of tribe
(d) type of animal
Ans.(a)

129. The crops grown with the onset of monsoon.
(a) Rabi
(b) Kharif
(c) Zaid
Ans.(b)

130. Which one of the following rights has led to fragmentation of landholding size?
(a) Right to succession
(b) Right to information
(c) Right to inheritance
(d) Right to land ceiling
Ans.(c)

131. Cultivation of fruits and vegetables is called:

(a) Floriculture

(b) Sericulture

(c) Horticulture

(d) Agriculture

Ans.(c)

132. About 90% of Rubber demand is met by

(a) Kerala

(b) Karnataka

(c) Tamil Nadu

(d) Maharashtra

Ans.(a)
