Here we are providing Class 7 Social science Our Enviroment MCQs Chapter – 6 Natural Vegetation and Wild Life because its very important for Class 7 students as we all know that every board exam question has MCQs so that students should practice these questions so that students can get good marks in board. **Class 7 Social science** Our Enviroment MCQs Chapter – 6 Natural Vegetation and Wild Life is an extremely important and its also a year in which students learn the fundamentals of concepts that help them lay a solid foundation for their higher education. Here we are providing in Class 7 Social science Our Enviroment MCQs Chapter – 6 Natural Vegetation and Wild Life 100+ questions so that students practice more and more. If you want class wise Notes Then **Click Here**

1. Name the animal found in tropical grasslands?

(a) Camel

(b) Giraffe

(c) Monkey

(d) Cow

Ans-(b)

2. Trees which shed their thick barks and wax coated leaves are called:

(a) Temperate Deciduous

(b) Mediterranean

(c) Coniferous

Ans-(b)

3. Salima was going to attend the summer camp at:

(a) Manali

(b) Dehradun

(c) Kashmir

Ans-(a)

4. Softwood trees are found in the forest:

(a) Temperate Deciduous

(b) Temperate Evergree

(c) Coniferous

(d) Security

Ans-(b)

5. Protection, preservation and efficient utilisation of resources is known as

(a) Consumption

(b) Conservation

(c) Security

(d) Protection

Ans-(b)

6. Tropical deciduous forest shed their leaves in

(a) Dry season

(b) Rainy season

(c) Cold season

Ans-(a)

7. What are Coniferous forests also known as?

(a) Tundra

(b) Mediterranean

(c) Taiga

(d) None of these

Ans-(c)

8. When Salima's bus was climbing up and up she was surprised to see:

(a) Changes in the landform

(b) Changes in the natural vegetation

(c) (a) and (b) both

(d) Taiga

Ans-(c)

9. Savannah grasslands of ___ are of tropical grassland

(a) America

(b) Australia

(c) Asia

(d) Africa

Ans-(d)

10. Natural vegetation is generally classified into:

(a) Two broad categories

(b) Three broad categories

(c) Four broad categories

Ans-(b)

11. Thorny bushes are found in:

(a) Hot and humid tropical climate

(b) Hot and dry deserted climate

(c) Cold polar climate

Ans-(b)

12. Which one is the Temperate Grasslands of Australia?

(a) Down

(b) Steppe

(c) Veld

Ans-(a)

13. The animal in polar region have thick fur and thick skin

(a) To protect them from extreme rain

(b) To protect them from extreme cold

(c) To protect them from extreme hot weather

(d) To protect them from prey

Ans-(b)

14. What are the reason for the growth of vegetation?

(a) Temperature and moisture

(b) Only temperature

(c) Only moisture

(d) Dry climate

Ans-(a)

15. Mosses and Lichens are found in:

(a) Desertic Vegetation

(b) Tropical evergreen forest

(c) Tundra vegetation

(d) Tropical grassland

Ans-(c)

16. In which parts of the world are tropical deciduous forests found?

(a) India

(b) Northern Australia

(c) Central America

(d) All of the above

Ans-(d)

17. In which seasons do plants shed their leaves in temperate deciduous forests?

(a) Dry season

(b) Wet season

(c) Both (a) and (b)

(d) None of these

Ans-(a)

18. Thorny bushes are found in:

(a) Hot and humid tropical climate

(b) Hot and dry desertic climate

(c) Cold polar climate

(d) Tropical grassland

Ans-(b)

19. Which are the broad categories of natural vegetation?

(a) Forest

(b) Grassland

(c) Shrubs

(d) All of the above

Ans-(d)

20. Which forests are called tropical rainforests

(a) Temperate evergreen forest

(b) Temperate deciduous forest

(c) Tropical evergreen forest

(d) Tropical deciduous forest

Ans-(c)

21. In the tropical evergreen forest, one of the common animals is:

(a) Monkey

(b) Giraffe

(c) Camel

(d) Kangaroo

Ans-(a)

22. Where is the Steppe grassland is found?

(a) Africa

(b) Australia

(c) Central Asia

(d) N. America

Ans-(c)

23. These are found in the dry desert

(a) Tropical grassland

(b) Temperate evergreen forest

(c) Temperate grassland

(d) Thorny bushes

Ans-(d)

24. One important variety of coniferous forests is:

(a) Rosewood

(b) Pine

(c) Teak

(d) Sandalwood

Ans-(b)

25. Where did the Mosses and Lichens are found?

(a) Desert vegetation

(b) Tropical evergreen forest

(c) Tundra vegetation

(d) None of these

Ans-(c)

26. Which forests are considered 'the lungs of the earth' ?

(a) Tropical evergreen forest in Brazil

(b) Temperate Deciduous of New Zealand

(c) Tropical Deciduous Forests of India

(d) None of these

Ans-(a)

27. Steppe grassland is found in

(a) S. Africa

(b) Australia

(c) Russia

(d) North America

Ans-(c)

28. Where are tropical evergreen forests found?

(a) India

(b) Brazil

(c) China

(d) None of these

Ans-(b)

29. Anaconda, one of the world's largest snakes is found:

(a) Temperate Deciduous

(b) Tropical Evergreen

(c) Tropical rainforest.

(d) India

Ans-(c)

30. Where are temperate evergreen forests found?

(a) South east USA

(b) South China

(c) South east Brazil

(d) All of these

Ans-(d)

31. Which of the following is a controlling factor in the growth of vegetation?

(a) Temperature

(b) Moisture

(c) Slope and thickness of soils

(d) All of the above

Ans-(d)

32. Where did Ebony and Mahogany trees are found?

(a) Tropical evergreen forest

(b) Tropical deciduous forest

(c) Temperate evergreen forest

(d) Temperate deciduous forest

Ans-(a)

33. In which season do plants shed their leaves in temperate deciduous forests?

(a) Dry season

(b) Wet season

(c) Both (a) and (b)

(d) None of these

Ans-(a)

34. Natural vegetation can be classified into three major broad categories, which of the following is not a major category of natural vegetation?

(a) Forest

(b) Grassland

(c) Shrubs

(d) Crops

Ans-(d)

35. Wild buffaloes, bisons, antilopes are common in the

(a) Deciduous grassland

(b) Temperate grassland

(c) Tropical grassland

(d) Thorny bushes

Ans-(b)

36. What helps reduce transpiration in Mediterranean trees?

(a) Thick Bark

(b) Wax coated leaves

(c) None of these

(d) Both of these

Ans-(d)

37. _____ is one of the world's largest snakes and is found in the tropical rainforest.

(a) Green ratsnake

(b) Copperhead snake

(c) Python

(d) Anaconda

Ans-(d)

38. Where are Savannah grasslands located?

(a) Africa

(b) America

(c) Amazon

(d) Brazil

Ans-(a)

39. The growth of vegetation depends on

(a) temperature and moisture

(b) only temperature

(c) only moisture

(d) America

Ans-(a)

40. What is the name of the tropical grasslands of Venezuela?

(a) Savanna

(b) Campos

(c) Leanos

(d) Down

Ans-(c)

41. Which of the following is not found in Tropical Deciduous Forests?

(a) Tiger

(b) Elephant

(c) Silver Foxcorrect

(d) Monkeys

Ans-(c)

42. Name the animal found in tropical grasslands.

(a) Camel

(b) Monkey

(c) Giraffe

(d) Cow

Ans-(c)

43. Tropical desert are found in ___ margins of the country

(a) Western

(b) Eastern

(c) Southern

(d) Northern

Ans-(a)

44. The temperate grassland of Argentina is called

(a) prairie

(b) veld

(c) steppe

(d) pampas

Ans-(d)

45. Which one is called Taiga?

(a) Temperate Deciduous

(b) Coniferous

(c) Mediterranean

(d) Northern

Ans-(b)

46. In which type of climate are thorny bushes mainly found?

(a) Hot and humid tropical climate

(b) Hot and dry desertic climate

(c) Cold Polar climate

(d) None of these

Ans-(b)

47. Natural vegetation is generally classified into three broad categories as follows except

(a) Forests

(b) Grasslands

(c) Shrubs

(d) Flora

Ans-(d)

48. Which of the following is tropical grassland?

(a) Taiga

(b) Savannah

(c) Pampas

(d) Prairies

Ans-(b)

49. Which is one of the most common animal in tropical evergreen forest?

(a) Monkey

(b) Giraffe

(c) Camel

(d) Seal

Ans-(a)

50. Taiga means

(a) dry

(b) moist

(c) pure or untouched

(d) evergreen

Ans-(c)

51. What is the name of the largest snake found in tropical rainforest?

(a) Anaconda

(b) Black cobra

(c) Two mouth snake

(d) None of these

Ans-(a)

52. Savannah grasslands of _____ are of tropical grassland

(a) America

(b) Australia

(c) Asia

(d) Africa

Ans-(d)

53. What does Taiga mean in Russian language?

(a) Tei-rible

(b) Impure

(c) Purecorrect

(d) Hard

Ans-(c)

54. Plant community which has grown naturally without human aid and has been left undisturbed by humans for long time is termed as:

(a) Tundra vegetation

(b) Virgin vegetation

(c) Taiga plants

(d) None of the above

Ans-(b)

55. Type and thickness of vegetation change from place to place

(a) Due to variation in temperature and moisture

(b) Due to variation in type of animals found

(c) Due to variation in culture

(d) Due to variation in soil

Ans-(a)

56. The place which is extremely cold. The growth of natural vegetation is very limited here. It grows during the very short summer. This is called

(a) Tundra

(b) Taiga

(c) Thorny bushes

(d) Temperate grassland

Ans-(a)

57. Which forest are called taiga?

(a) Tropical deciduous forest

(b) Mediterranean Region

(c) Tropical evergreen forest

(d) Coniferous forest

Ans-(d)

58. Forest is

(a) Extensive area covered with flower

(b) Extensive area covered with trees

(c) Extensive area covered with soil

(d) Extensive area covered with grass

Ans-(b)

59. Citrus fruits such as oranges, figs, olives and grapes are commonly cultivated here

(a) Tropical deciduous forest

(b) Temperate evergreen forest

(c) Mediterranean Region

(d) Tropical evergreen forest

Ans-(c)

60. _____ is one of the world's largest snakes and is found in the tropical rainforest.

(a) Green ratsnake

(b) Copperhead snake

(c) Python

(d) Anaconda

Ans-(d)

61. Mosses and lichens found in

(a) Temperate grassland

(b) Tundra vegetation

(c) Tropical grassland

(d) Thorny bushes

Ans-(b)

62. Oak, pine, eucalyptus trees found in

(a) Temperate evergreen forest

(b) Tropical deciduous forest

(c) Temperate deciduous forest

(d) Tropical evergreen forest

Ans-(a)

63. Tropical evergreen forests are also called

(a) tropical rain forestscorrect

(b) tropical dry forests

(c) tropical deciduous forests

(d) none of these

Ans-(a)

64. Pampas grassland found in

(a) Argentina

(b) Brazil

(c) Central Asia

(d) Australia

Ans-(a)

65. The following forest type does not have much wildlife ___

(a) Coniferous

(b) Mediterranean

(c) Tropical Deciduous

(d) Temperate Deciduous

Ans-(b)
